ES | Railings  
& Balcony Dividers

**For all those who  
embrace design as  
equally as they value  
quality.**

Our railings are designed for sophistication and style. Each piece is carefully manufactured and checked for quality, ensuring full functionality and the ultimate end-user experience. We have the perfect solution for every architectural vision.

Explore our diverse railing series and transform your spaces with sophistication and durability.

## **Advanced Technology, Innovative Highlights.**

Transform your spaces with the modern elegance of our exquisite range of railing systems at ES. From sleek and contemporary to cutting-edge minimalism, our railing collection offers a diverse array of modern designs that effortlessly fuse style and functionality.

Our modern railing systems are designed to elevate any space to new levels of sophistication.

# ES Railings & Balcony Dividers Options

## RAILINGS

### EMBEDDED WITH POST

#### ES-RL3030

Is a modular railing gate system, four railing cap options available. pre-assembled & glazed and XR aperture only.

#### ES-RL3031

Is a modular glass railing system, pre-assembled & glazed for embedding into concrete.

#### ES-RL3520

Is a railing system ready to install with corner configurations and anodized, painted and wood grain finishes available. Pre-assembled & pre-glazed, embedded in concrete.

#### ES-RL3525

Is a railing system with front of slab and above of slab options. It is embedded into concrete, corner option available, preassembled glass panels.

#### ES-RLAM40

Is a modular glass railing system, pre-assembled & glazed for embedding into concrete, anodized, painted and wood grain finishes available.

#### 050M

Is an integrated railing system. Designed for exterior and interior glazing. It comes preassembled with an optional reinforcement available.

#### SERIE 950

Is a railing system with glass panels in front of slab, for interior and exterior use and corner options available. Pre-assembled & pre-glazed, embedded in concrete.

#### ES-FS30

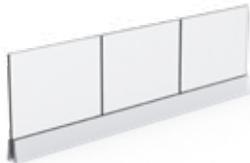

Is a railing system designed for embedding into concrete, featuring compatibility with laminated glass. Engineered for strength, it offers resistance to small missile impacts, ideal for interior and exterior applications.

#### ES-VT30

The ES-VT30 is a state-of-the-art embedded railing system that combines modern design with unparalleled performance. Its robust construction ensures compatibility with straight, concave, and convex glass configurations, offering flexibility for diverse architectural needs.

## SURFACE MOUNTED POSTLESS

**ES-RL5540**

Is a railing system with laminated glass with vertical polished edge and embedded into Sika grouting for stability.

**ES-RL5740**

Is a system with laminated glass with vertical polished edge. Straight and 80° angle configurations available.

## PICKET RAILING

**Vertical Picket Railing**

This pre-assembled modular railing system is perfect for any space.

## DOOR RAILINGS

**ES-RG**

Is an adaptable modular glass gate system, with swing gate with locking device, pre-assembled & glazed For embedding into concrete.

## WINDSCREEN

### EMBEDDED WITH POST

**WS5032**

Is a wind screen system with glass panels for interior and exterior use and corner options available. Preassembled & pre-glazed, embedded in concrete.

### SURFACE MOUNTED POSTLESS

**WS8526**

is a wind screen system with laminated glass, vertical polished edge and embedded into Sika grouting for stability.

## BALCONY DIVIDERS

**ES-9500**

Is a system large missile impact, with laminated and insulating-laminated glass for embedding into concrete, anodized, painted and wood grain finishes available.

**ES-BD4050**

Is a system with top and bottom rail and laminated glass with vertical polished edge.

# ES-RL3030

## Railing

### Description:

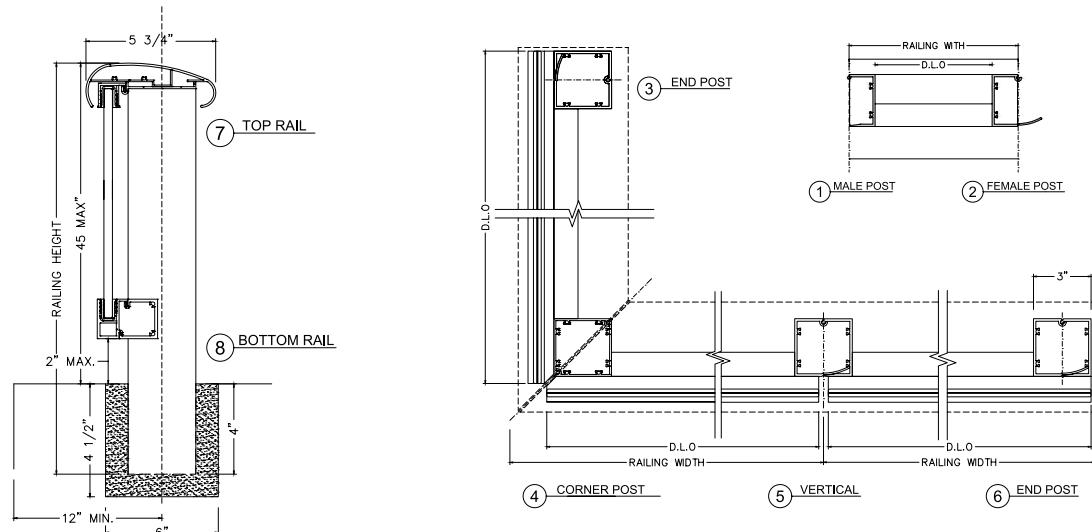

- Modular glass railing.
- Pre-assembled & glazed.
- 42 embedment depth.
- 6" embedment diameter.
- 12" minimum edge distance.
- Mullion size 3"x3".
- Four railing cap options available.
- Options of bottom rail available.
- Corner available.

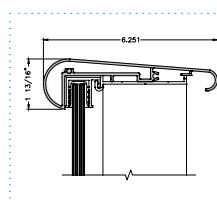

### Performance & Highlights

<b>Glazing options</b>	G1: 3/16" Temp + 0.035" SGP + 3/16" Temp G2: 3/16" Temp + 0.060" SGP + 3/16" Temp
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum sizes: Width: 49"   Post Height: G1 -48"   G2: 52".
<b>Design Load</b>	+/-120 PSF

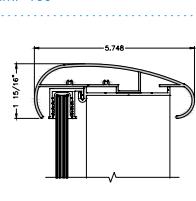

### Details & Configurations

# ES-RL3031

## Railing

### Description:

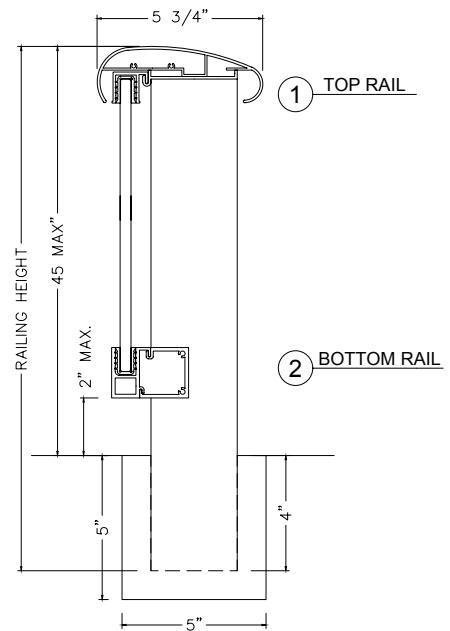

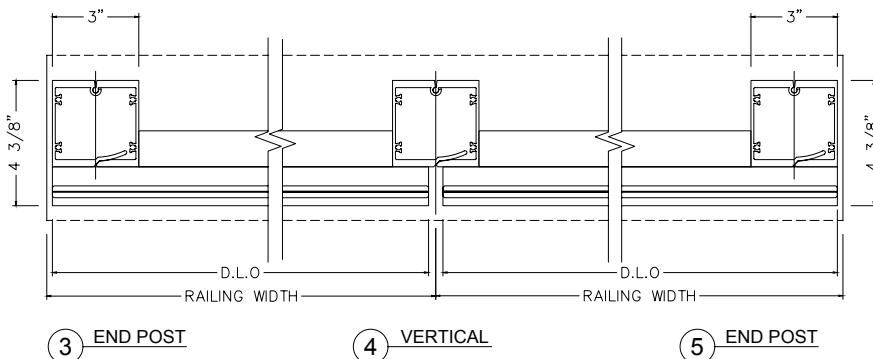

- Pre-assembled & glazed.
- Modular glass railing system.
- For embedding into concrete.
- Cap width: 5 3/4".
- Mullion size: 3" x 3".
- Reinforced mullion.
- 6" embedment diameter.
- 5" post embedment depth.
- 7" edge distance.

### Performance & Highlights

<b>Glazing options</b>	3/16" clear tempered glass + 0.035" SentryGlas + 3/16" clear tempered glass. - Laminated Glass.
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum tested size: Panel Width: 48"   Panel Height: 49".
<b>Design load</b>	+/-185 PSF.
<b>Tested &amp; certified</b>	TAS202, ANSI Z97.1.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-RL3520

## Railing

### Description:

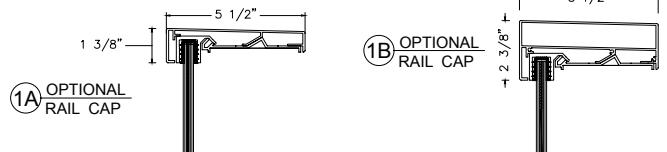

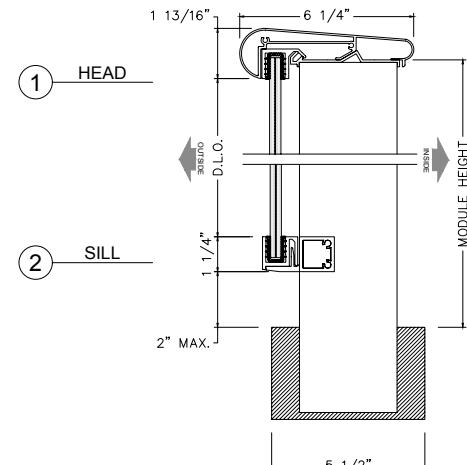

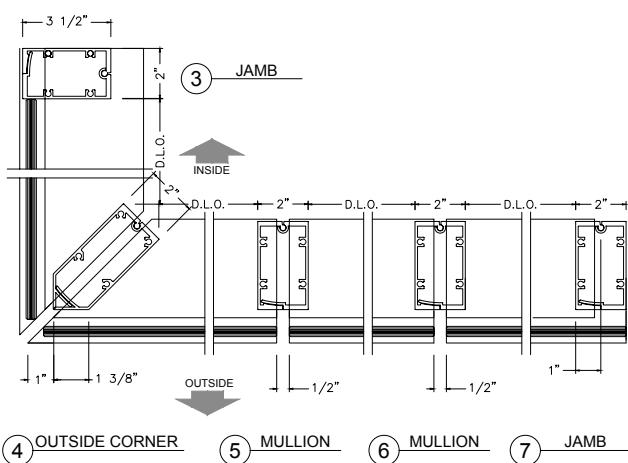

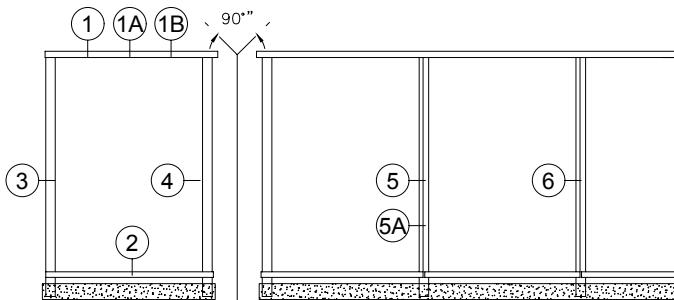

- Pre-assembled & pre-glazed.
- Ready to install.
- With corner configurations.
- Embedded in concrete
- Rail cap depth: (5 1/2" or 6 1/4")
- Sight line: 2"
- Frame depth 3 1/2"

### Performance & Highlights

<b>Glazing options</b>	3/16" Temp. + 0.035" Sentryglass + 3/16" Temp.
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum size per unit: <b>Width: 50"</b>   <b>Height: 43 5/16"</b> .
<b>Design load</b>	+/- 145 PSF.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-RL3525

## Railing

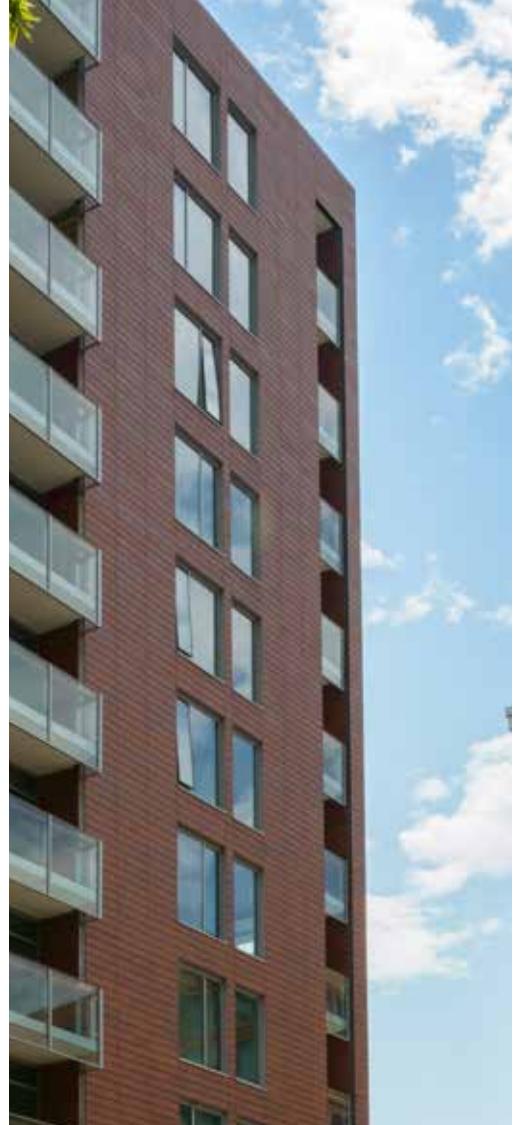

### Description:

- Embedded into concrete.
- Corner option available.
- Pre-assembled glass panels.
- Railing depth: 12".
- 6" embedment diameter.
- 6 1/2" embedment depth.
- 7" edge distanceG1.

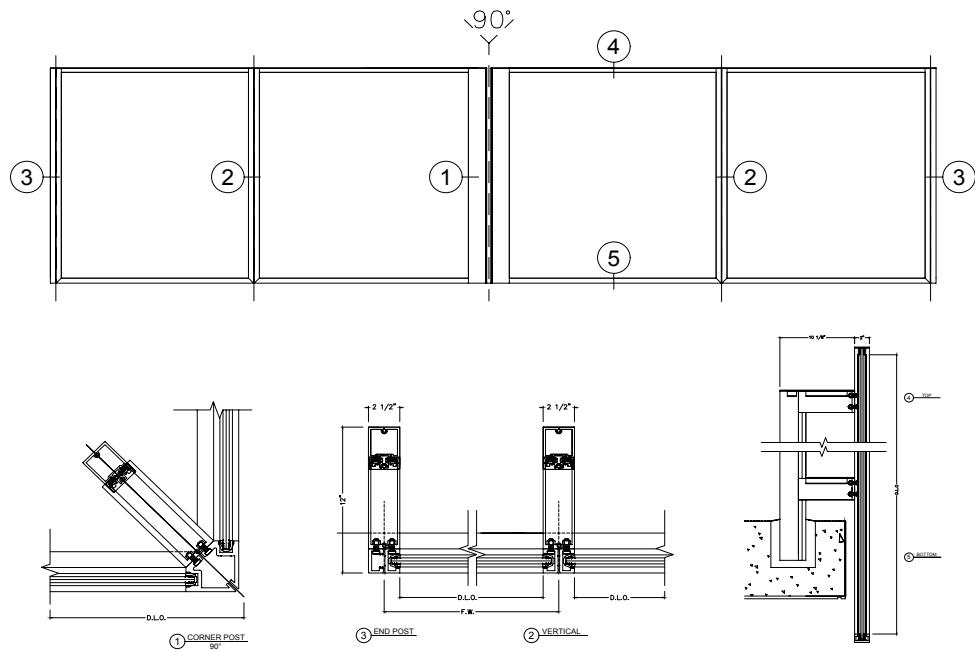

### Performance & Highlights

<b>Glazing options</b>	G1: 1/2" Clear Temp. Glass. G2: 3/16" Temp. Glass + 0.060" SGP + 3/16" Temp Glass.
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum tested size: <b>Width: 5'-4 5/16"</b>   <b>Height: 5'-6"</b> .
<b>Sealant</b>	Weatherproofing Silicone   Structural Silicone.
<b>Design load</b>	+120 / -120 PSF.
<b>Pull test</b>	400 lb.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-RLAM40

## Railing

### Description:

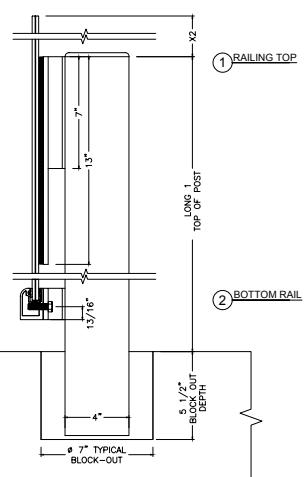

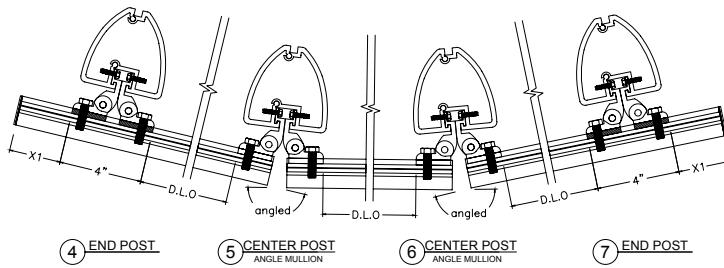

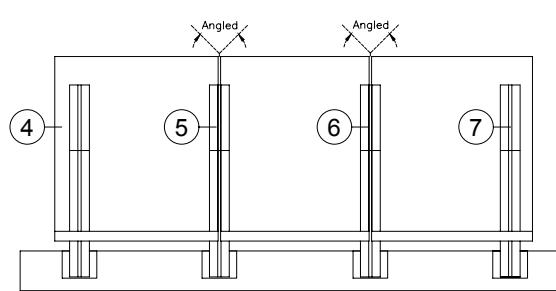

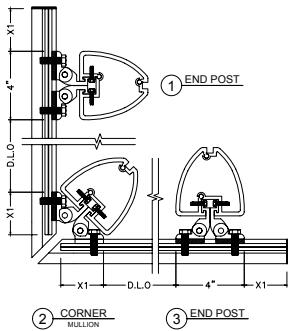

- Pre-assembled & glazed.
- Hinge arms mechanism that allows a variety of options from straight to angular and corner configurations.
- For embedding into concrete.
- Frame depth: 6 3/4"
- 7" embedment diameter.
- 4 1/4" post embedment
- 4 3/4" embedment depth, 6 3/4" edge distance

### Performance & Highlights

<b>Glazing options</b>	3/16" Heat stren'd glass + 0.035" SGP interlayer + 3/16" Heat stren'd glass - Laminated Glass.
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum tested size: <b>Panel Width: 50 1/16"</b>   <b>Panel Height: 44"</b> .
<b>Design pressure</b>	+120 / -120 PSF.
<b>Structural test pressure</b>	240 PSF.
<b>TAS 202</b>	120 PSF.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# 050M

## Railing

### Description:

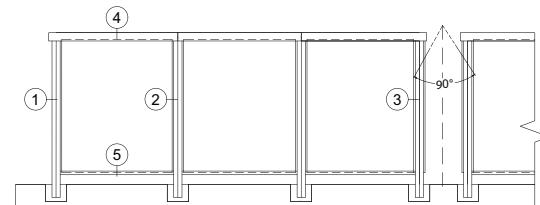

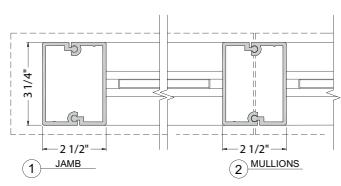

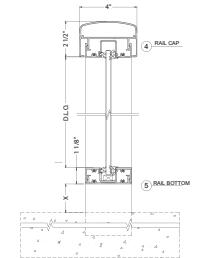

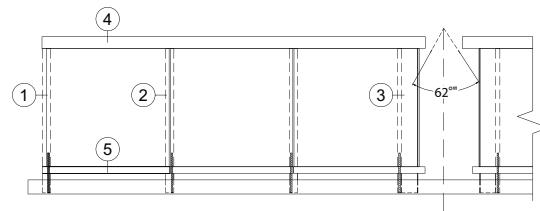

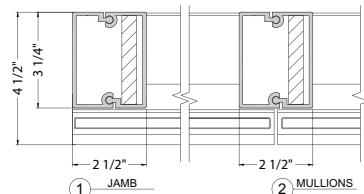

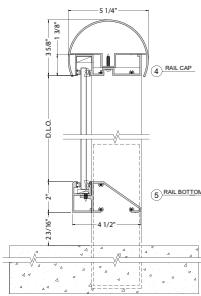

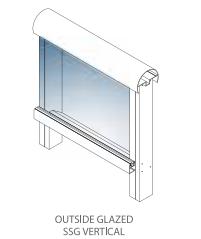

- Embedded railing system.
- 4 1/16" embedment diameter.
- 4" post embedment.
- 7" edge distance.
- Outside and inside glazed.
- SSG and captured verticals.
- Pre-assembled.
- Reinforcement option available.

### Performance & Highlights

<b>Glazing options</b>	3/8" Clear Temp   Monolithic glass Outside reglaze 3/8" Clear Temp   Monolithic glass inside reglaze.
<b>Sizes</b>	Maximum size per unit: <b>Width: 54"</b>   <b>Height: 44"</b> .
<b>Frame depth</b>	4" - 5 1/4"
<b>Design load</b>	+130 PSF.
<b>Aluminum</b>	ALLOY 6063-T6 - ALLOY 6005-T5

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# SERIE 950

## Railing

### Description:

- SSG and captured verticals.
- Pre assembled.
- Reinforcement option available.
- Floating glass railing system.

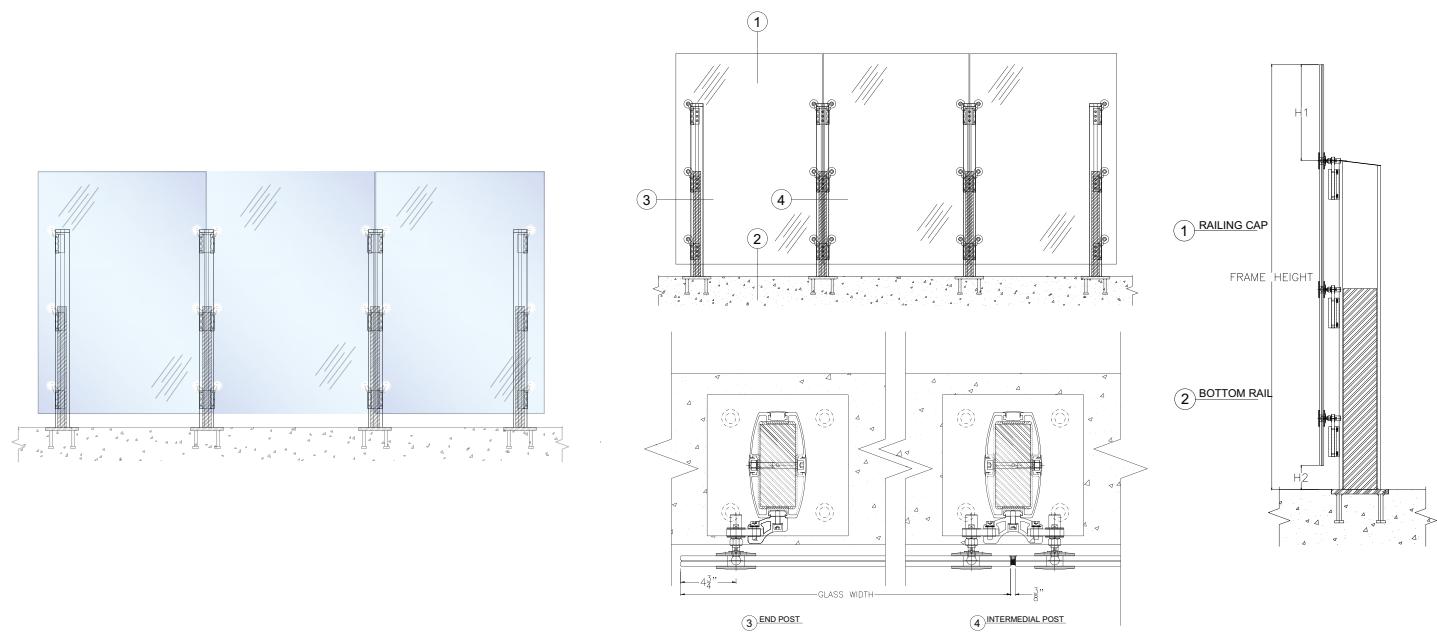

### Performance & Highlights

<b>Glazing options</b>	3/8" Temp + 0.125 SGP + 3/8 Temp"
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Width: 60"   Post Height: 44"   Glass Height: 82".
<b>Design load</b>	+130 PSF.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-FS30

## Railing

### Description:

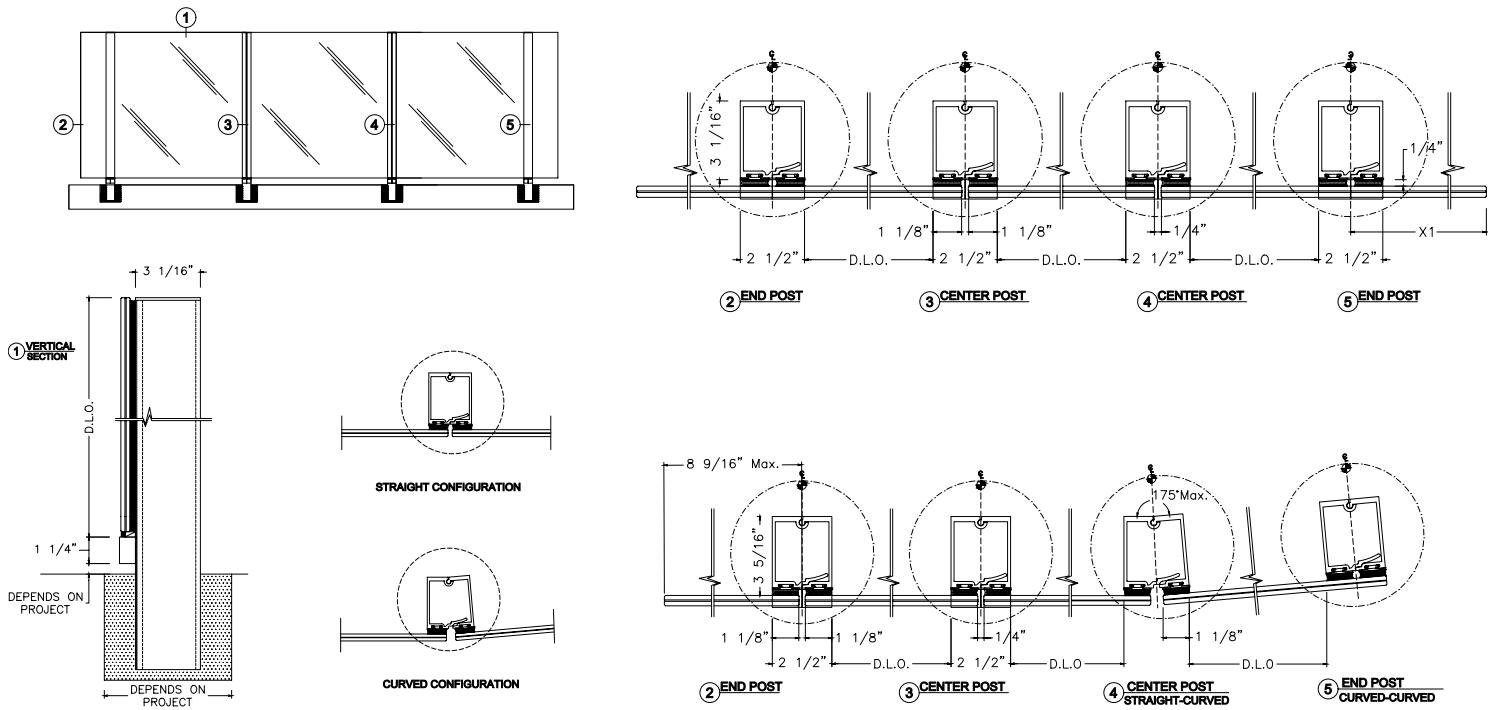

- For embedding into concrete.
- Laminated glass with vertical polished edge.
- Curved configuration available.
- Modular configuration available.

### Performance & Highlights

Glazing options	G1-LMI: 3/16" FT GLASS + 0.060 SGP + 3/16" FT GLASS. G2-SMI: 3/16" FT GLASS + 0.035 SGP + 3/16" FT GLASS G3: 3/16 " FT GLASS + 0.12 SGP + 3/16" FT GLASS
Aluminum	ALLOY 6005-T5
Sizes	Maximum size per unit: Width: 51 3/4"   Height: 44".
Design load	+84/+84 PSF.
Tested & certified	TAS201, TAS202, ANSI Z97.1

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-VT30

## Railing

### Description:

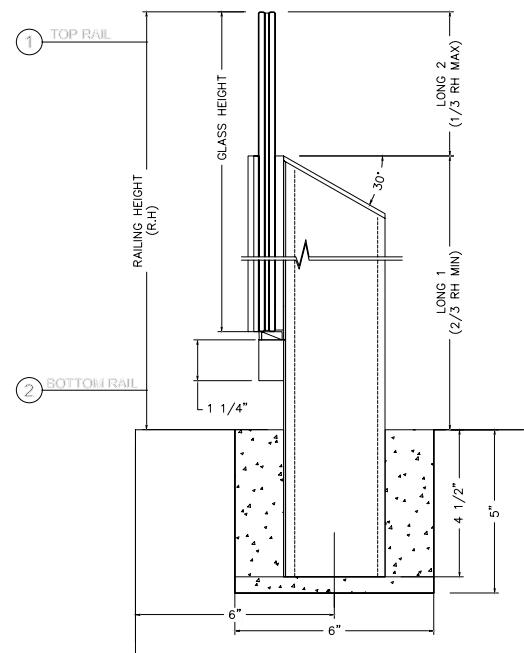

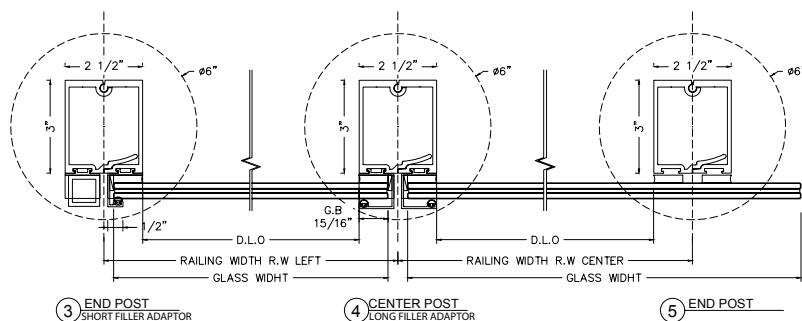

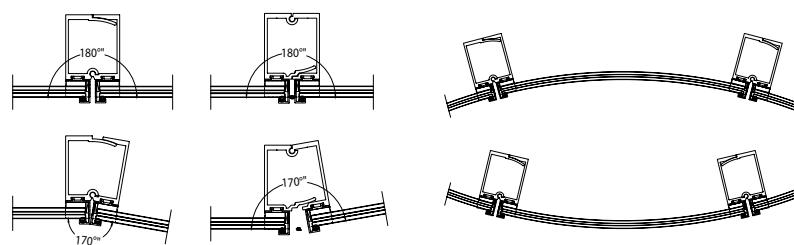

- For embedding into concrete.
- Concave and Convex glass option.
- Modular configuration available.
- Designed for : 5/8" and 7/16" laminated glass

### Performance & Highlights

Glazing options	G1 - Curved Glass: 1/4" FT glass + 0.12" SGP + 1/4" FT glass. G2: 3/16" FT glass + 0.06" SGP + 3/16" FT glass.
Aluminum	ALLOY 6063-T6   ALLOY 6005-T5
Sizes	Maximum heights: Railing: 48"   Post: 35"   Glass: 43" Radius of curvature: 100"   Post depth: 3"
Embedment	Diameter: 6"   Depth: 5"
Design load	+90/+90 PSF.
Tested & certified	TAS201, TAS202, ANSI Z97.

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-RL5540

## Railing

### Description:

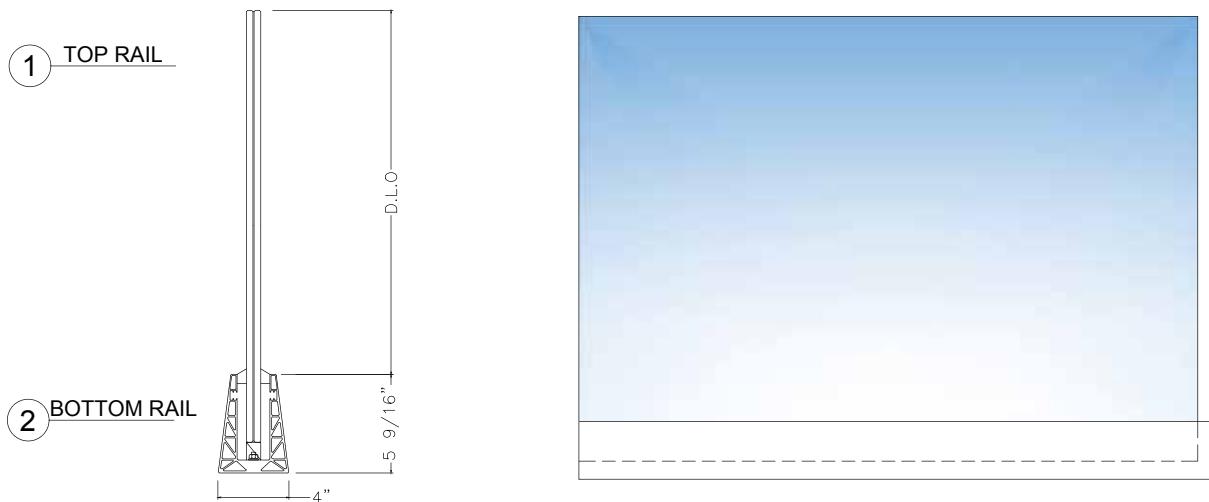

- Laminated glass with vertical polished edge.
- Embedded into Sika grouting for stability.
- Frame depth: 4".
- Shoe height: 5 9/16".
- Edge distance: 5 9/16".

### Performance & Highlights

<b>Glazing options</b>	3/8" Temp. Glass + 0.06" Spg Interlayer + 3/8" Temp. Glass - Laminated Glass.
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum size: <b>Width: 70"   Height: 44 1/2".</b>
<b>Sealant</b>	Weatherproofing Silicone   Structural Silicone.
<b>Design load</b>	+160 / -160 PSF.

### Details & Configurations

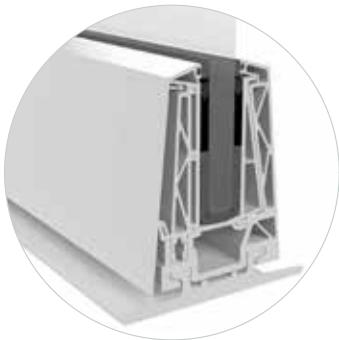

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# ES-RL5740

## Railing

### Description:

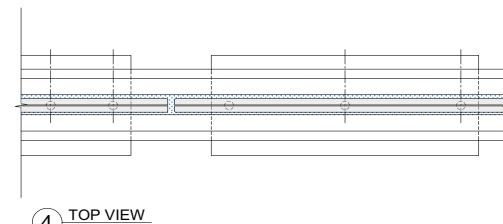

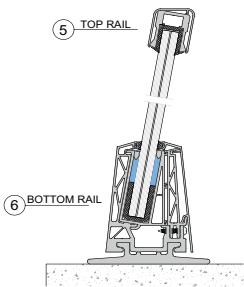

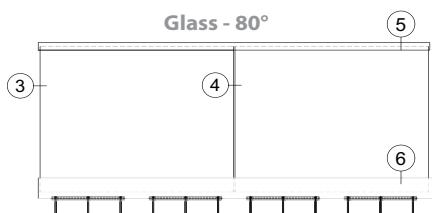

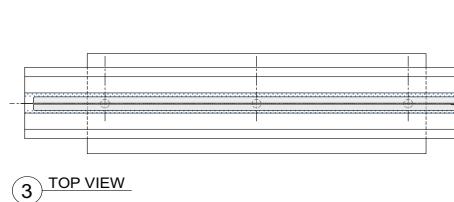

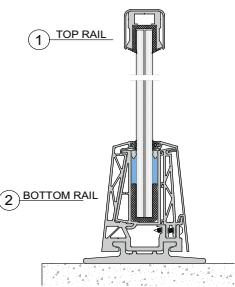

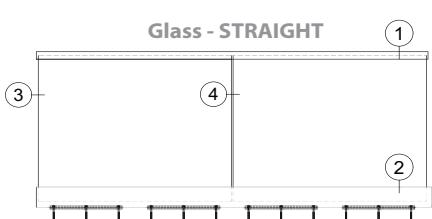

- Laminated glass with vertical polished edge.
- Straight and 80° angle configurations available.
- Frame depth: 4".
- Bottom rail height: 6 5/16".

### Performance & Highlights

<b>Glazing options</b>	3/8" Temp + 0.060" SGP + 3/8" Temp - Laminated Glass - Straight
<b>Aluminum</b>	2605 FINISH
<b>Sizes</b>	Maximum tested size: <b>Width: 50"</b>   <b>Height: 44 1/2"</b> .
<b>Design load</b>	+160 / -160 PSF.
<b>Drop test</b>	400 FT-LB

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# WS5032

## Railing

### Description:

- Frame depth: 5".
- Straight or angle.
- Slab embedded support posts.
- 8" post embedment.

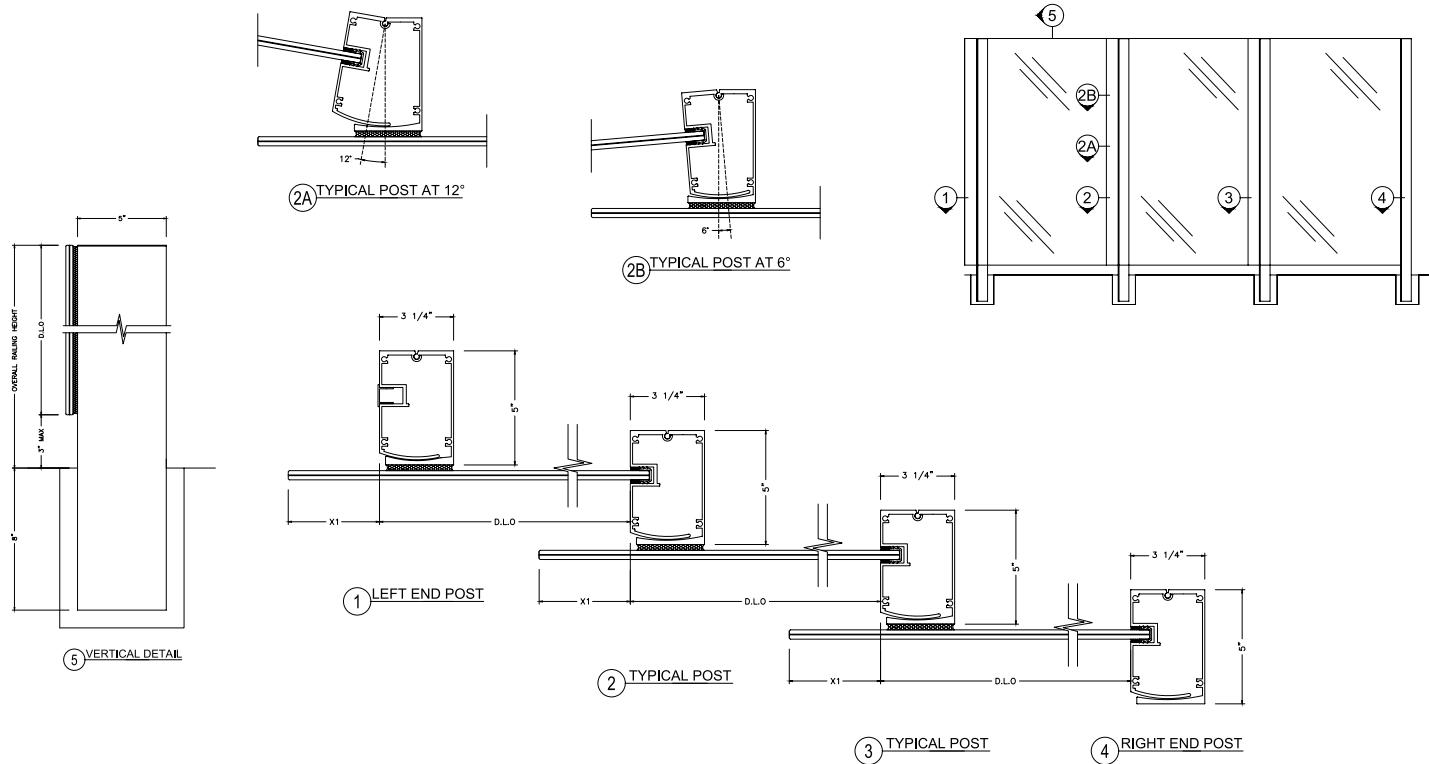

### Performance & Highlights

Glazing options	3/16" Heat Stren'd Glass + 0.03" Interlayer Sentryglass + 3/16" Heat Stren'd Glass.
Aluminum	2605 FINISH
Sizes	Post Height: 80"   Glass Height: 70"   Glass Width: 60 11/16"   Post CL to CL dimension: 48".
Sealant	Structural Silicone.
Design load	+/- 100 PSF (Wind pressures).

### Details & Configurations

This data corresponds to the highest values obtained for some configurations. It can vary and may not apply to all.

# WS8556

## Windscreen

### Description:

- Shoe depth: 8 1/2".
- Sight line: 5 5/8".
- Embedded into grouting for stability.
- On-site assembly.

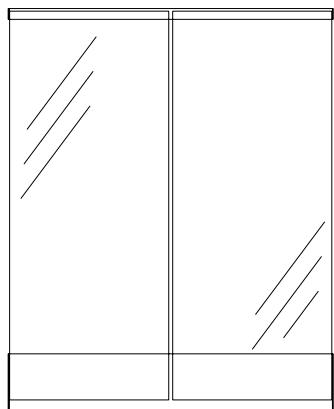

### Performance & Highlights

Glazing options	5/8" Temp Glass + 0.090" Sentryglass + 3/16" Temp Glass
Aluminum	2605 FINISH
Sizes	Post Height: 80"   Glass Height: 70"   Glass Width: 60 11/16"   Post CL to CL dimension: 48".
Design load	+/- 140 PSF (Wind pressures).

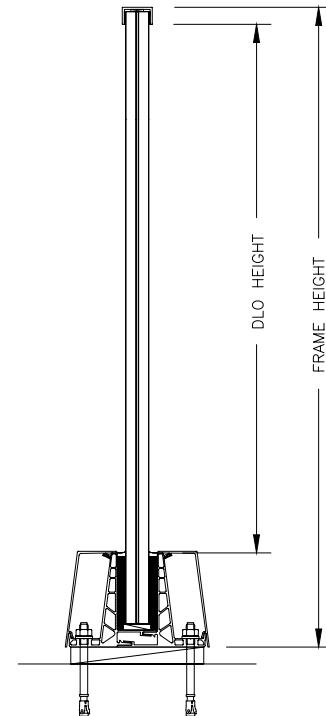

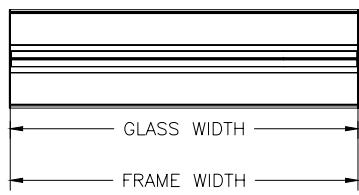

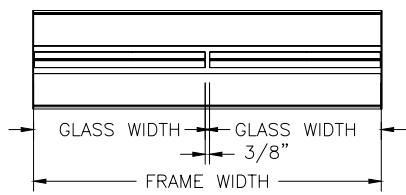

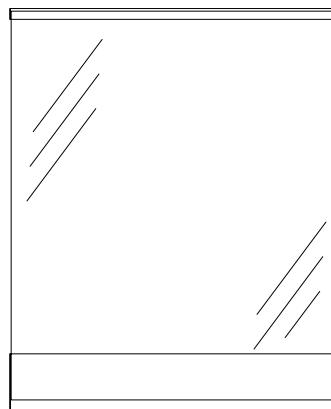

### Details & Configurations

MULTIPLE

SINGLE

# VERTICAL PICKET RAILING

## Railing

### Description:

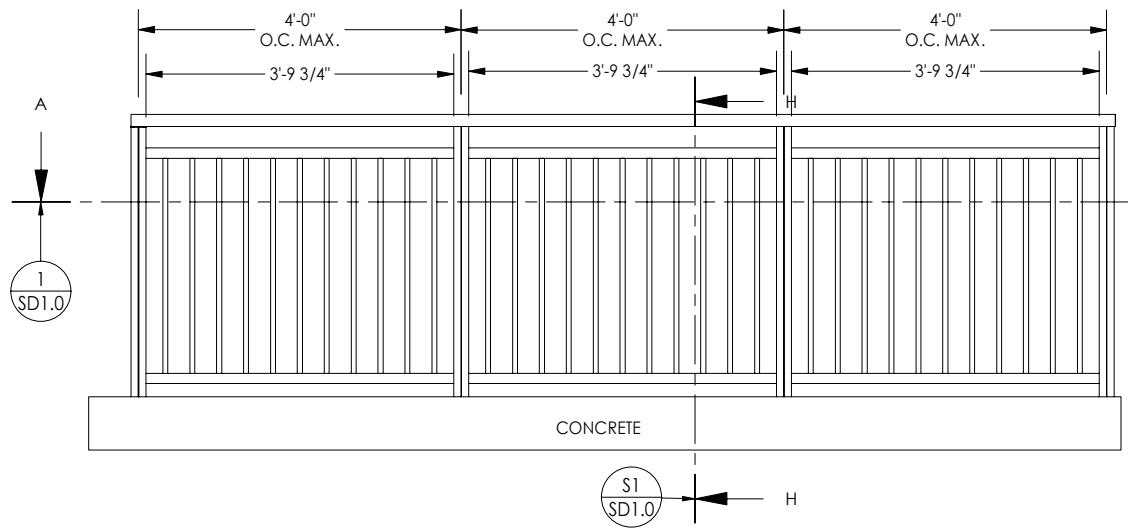

- Pre-assembled.
- Modular railing system.
- Cap width: 2-5/8".
- Mullion size: 2-1/4".

### Performance & Highlights

<b>Picket profile options</b>	31" Vertical circular profile (COMP-076) / 1-3/4" x 5/8" Vertical tubular profile (COMP-0254) / 2" x 1" Vertical tubular profile (COMP-016)
<b>Cap profile options</b>	4-1/16" COMP-012 / 2-5/8" COMP-067 / 3" COMP-075 / 3" COMP-111

## **Distribution:**

ES is a fully integrated supplier strategically located on the northern end of South America on the Colombian Caribbean coast. Because we control the manufacturing process from beginning to end, we are able to offer a single-source warranty. We don't perform random quality control on our products—we inspect every single one of them.

## **Certifications:**

Our Quality Control Program is proof of our constant commitment to surpass accepted quality standards. We are certified by the top companies in the industry to ensure that our products and services stay up to date and comply with the stringent rules and regulations of the industry.

The information contained herein is the exclusive property of ES, which reserves the right to modify it, including but not limited to designs and

specifications, without prior notice.
